

Halifax 7 Research Pre-Conference

How do I know my patient safety program is working?

Co-Chairs,
Dr. Alan Forster, MD FRCPC MSc
Dr. Kaveh Shojania, MD

Faculty

- Dr. Robyn Tamblyn, RN PhD
– Professor, McGill University
- Dr. Ed Etchells MSc MD FRCPC
– Associate Professor, University of Toronto

Themes

- Evidence, although sometimes imperfect, should not be ignored
- It is necessary to take a **Practical ('non-researchy') approach** as evidence may be imperfect
- Systematic approach to setting priorities, implementing programs, and performing evaluation will help your organization provide safer healthcare

The Ottawa Hospital | L'Hôpital d'Ottawa

Program

- 9:00-10:30 – Implementation
- 10:45-12:00 – Measurement
- 1:00-2:45 – Priority setting
